Rachel Kinzel l Full Stack Web Developer

rachelkinzel-portfolio l LinkedIn l github/rharen11

RELEVANT EXPERIENCE

Swept Away l Solo Project
Full Stack Developerl 1 week l Live l Github
- *Keep track of cleaning items, clean for today- enjoy for life!*
- *Used Python on a Django framework to create an interactive application for the user to add cleaning items and supplies*
- *Used PostgreSQL as the database to store user information*
- *Tech used: Python, Django, postgreSQL, Docker*

Newt l Team Project
Full Stack Developerl 2 weeks l Live l Github
- *Learn new skills and forget about being bored with this application full of activities!*
- *Used Javascript with the MERN stack to create a dynamic app for users to explore, add, view, and delete new activities and skills. The app also allows the user to view their own profile and everyone in the Newt community*
- *Used MongoDB with Mongoose to store user activities and skills along with user information*
- *Used Google OAth to provide user information to the app*
- *Tech used: Javascript, HTML, CSS, Node.js, Express, MongoDB with Mongoose, React*
- *Contributors: Beryl Baldwin; Kevin Rodriguez*

Sonoma Hikes l Solo
Full Stack Developer l Live l Github
- *Enjoy the mountains of Sonoma with this interactive hiking application*
- *Used Javascript with the MEN stack to create an app for users to explore trails throughout Hood Mountain. Users can view all trails that have been added to the database and add trails as well. The app creates a profile for all new users where hikes can be added with corresponding trails.*
- *Used Google OAth to provide user information to the app*

- *Tech used: Javascript, HTML, CSS, Node.js, Express, MongoDB with Mongoose, Google OAuth*
- *Built as an exploration of the MEN stack using Heroku as a deployment platform*

WORK EXPERIENCE
